PERSONAL PROFILE

A highly organised, hardworking, proactive individual with a strong background in IT. I took leave from IT to improve both my soft and technical skills. During my tenure as a Technical Support Advisor, I greatly improved upon my communication, leadership and analytical skills. My time spent as a Plumber's Mate further enhanced my organisational and time management skills

I have just recently completed an 8-week software development bootcamp and I am currently studying Cyber Security via distance learning (self-paced)

Looking to further develop my career in software development and gain the necessary skills to create high quality coding solutions. I aspire to create complex projects and work with like-minded individuals

KEY SKILLS

Technical Skills

- HTML
- CSS
- JavaScript
- SQL
- Python
- C++
- Git

Soft Skills

Problem Solving | Analytical | Time Management | Leadership | Communication| Organisational

INTERESTS

Artificial Intelligence

I am passionate about exploring artificial intelligence and am enthusiastic about its potential applications within technology. I find A.I. extremely engaging and seek to understand its limitless possibilities while also being prepared for its potential dangers

Raspberry Pi

Enthusiastic about creating projects using Raspberry Pi 5. Projects allow me to further enhance my programming knowledge of Python and C++, while also allowing me to explore creative ideas and solutions

ONLINE COURSES

- CS50's Introduction to Programming with Python
- freeCodeCamp
- Unreal Engine 5 C++ Developer: Learn C++ & Make Video Games (Udemy)
- The Odin Project (Full Stack JavaScript)

ADDITIONAL SKILLS AND PROFICIENCIES

- Full UK Driving Licence
- Familiar with Agile and Scrum
- PowerPoint 2016 Certified
- Experience with Virtual Machines
